

Plan 1: Basic Protection Plan

Plan 1 is recommended for homeowners seeking excellent coverage on single zone warm air systems. Plan 1 provides 24 hour 'no heat' protection as well as parts and labor coverage on the following components of your heating system:

Controls

- Aquastat
- Electronic Primary Control (Heat Only)
- Fan & Limit Control
- Fan Control
- High Limit Control
- Low Limit Control
- Standard Thermostat

Burner Components

- Air Tube
- Burner Coupling
- Burner Fan
- Cad Cell Eye
- Cad Cell Relay
- Delayed Oil Valve
- Drawer Assembly
- Electrodes
- End Cone
- Firomatic Valve At Burner
- Fuel Pump
- Ignition Transformer
- Motor (up to 1/7 hp)
- Nozzle
- Nozzle Line
- Nozzle Line Adapter
- Oil Filter Complete
- Porcelains

Mechanical Components

- Blower Bearings
- Blower Wheel
- Circulator Motors (non-cartridge up to 1/6 hp)
- Emergency Switch
- Fan Belt
- Blower Motor (up to 1/2 hp)
- Blower Pulley
- Blower Shaft

Plan 2: Advanced Protection Plan

Plan 2 is recommended for homeowners seeking excellent coverage on hot water, steam or multi-zone warm air systems. Plan 2 provides all the coverage offered in Plan 1 as well as additional coverage on the following major heating systems components:

Hydronic Parts

- Air Scoop
- Automatic air vent (boiler room only)
- Circulator Bearing Assemblies
- Circulators (up to 1/6 hp)
- Expansion Tank (bladder-type up to #60)
- Feed Valves
- Flow Valves
- Pressure Relief Valve

Zoning Systems*

- Circulator Relays
- Zone Dampers
- Zone Motors
- Zone Panels
- Hydronic Zone Valves

Steam Components

- Blow down valve
- Feeder valve (electric only)
- Float Assembly
- Float switch
- Gauge Glass
- Low Water Cut-Off (probe type only)
- Pressuretrol (auto type only)

* Does not apply to air handlers

Additional Plans

Direct Fired Water Heater Plan

This plan provides coverage on any part of your direct-fired water heater's burner or electronic controls. Coverage on the hot water storage tank is not included.

Indirect Fired Water Heater / Storage Tank Plan

This plan provides coverage on your indirect-fired water heater's or hot water storage tank's electronic controls and bronze circulator. Coverage on the hot water storage tank is not included.

Oil Tank Protection Plan

In the event your oil tank leaks, this plan will provide for a new aboveground 275 gallon oil tank.

(Restrictions Apply. See Following Pages For Each Plan's Coverage Details)
